HAVE YOU MATTING ON YOUR FLOORS?

If you have used it for any length of time you no doubt feel that matting is not exactly the cleanliest or healthiest thing you could use. Damp air often makes the odor of matting unpleasant. And matting is so widely used that to have it on your floors makes them look common. From an Eastern manufacturer we have secured a substitute for matting. It does not cost much more to put down matting and makes your rooms look cosy and comfortable. It will wear and look well longer than matting and unless you are very familiar with the goods you cannot tell it from a Brussels carpet after it is down. All fine carpet patterns are copied in these goods. It is good for every room of your house. It is called

COTTAGE CARPET

and in a short time will be used by all progressive householders. It is warranted moth proof. We would like to show it to you. Try it in one room and later permit us to use different patterns on every room in your house. It is cheap, pretty and serviceable.

Ask for it at the furniture stores of J. HOPP & CO. in the Alexander Young Building.
